## II. ANNUAL SERVICE AND BUDGET PLAN FOR FY15

The Eastern Iowa MH/DS Region, hereafter referred to as the Region, exists to support an array of services designed to promote community integration for individuals with mental illness, intellectual disabilities, developmental disabilities and/or brain injury. This plan covers the period from July 1, 2014 through June 30, 2015.

### **A. Access Points and Targeted Case Management Agencies**

An access point is an agency within the Region's service system trained to complete the MH/DS regional applications for individuals with mental illness, intellectual disability, developmental disabilities and/or brain injury. The Region has designated the following access points, including targeted case management agencies. Targeted Case Management agencies are identified by (\*\*).

## **B. Crisis Planning**

Crisis preventions, responses and resolutions are a continuum of strategies and services. The goals of the Crisis Planning are to engage and to assist individuals at an earlier stage of crisis to avoid the need for more intensive services. Crisis Planning provides the individual stabilization, assessment, and assistance to transition back to the community as a productive member.

There are several services the Region is planning such as: Short Term Crisis Residential and Stabilization Units and 23 Hour Crisis Stabilization/Observation Beds. The outcomes of these services are to avoid more intense and costly services such as emergency rooms, inpatient hospitalization and intervention by law enforcement agencies.

A hospital in the Region has recently added 23 Hour Crisis Stabilization/Observation Beds to provide assessment and referrals specifically targeted to individuals as a diversion from inpatient hospitalization and jail.

The chart below is a list of current crisis services and providers.

### **C. Scope of Services and Budget**

The annual budget and planning process is utilized to implement core service improvements. The Region collaborates with stakeholders to assess the need and to advocate for adequate funding of services and supports in the initial core and additional core service domains.

An individual applying for funding must meet the general, financial, diagnostic and residency requirements in order to be eligible for assistance. Although the Region is the payer of last resort, the CEO/Management Team will ensure every eligible individual's funding needs are met regardless of funding sources. The Coordinators of Disability Services will evaluate the individual's needs to determine the type of services that may be appropriate. They will assist the individual to apply for all other available funding sources including medical assistance programs, grants, etc., and also identify any natural supports that may provide additional assistance.

The Region is responsible for services authorized in accordance with the Regional Management Plan and within the constraints of budgeted dollars. However, services funded by the Region are subject to change or termination with the development of the annual budget each fiscal year.

The five (5) counties developed individual county FY15 budgets. Those budgets were combined into a Regional budget and in March of 2014, the Governing Board of Directors reviewed and adopted the regional budget. The CEO/Management Team and fiscal agent are responsible for managing and monitoring the budget adopted by the Governing Board. Additionally, the CEO/Management Team has reviewed the new access standards in IAC 441-25.3 and has agreed the budgeted amounts should meet the access standards. Providers have been notified of the new access standards and expectations.

Annually, the CEO/Management Team will review the Region's actual expenditures and services provided, stakeholder input and participation, quality assurance implementation findings, waiting list information, progress toward outcomes, and, if any, appeal types and resolutions to determine if gaps in services or barriers to services exist. By December 1<sup>st</sup> of each year, the Annual Report will be submitted to the Iowa Department of Human Services.

**D. Financial Forecasting Measures**

Historical service utilization is the starting point for all financial projections. Throughout the year, the CEO/Management Team and the Regional Advisory Committee will identify unmet needs and areas for service development, which will be incorporated into subsequent strategic plans and budgets. Strategic plan priorities will be identified throughout FY15 with the input from the Regional Advisory Committee and the Governing Board. The Region is exploring a continuum of crisis stabilization services. The costs projected are unknown at this time.

## **E. Provider Reimbursement Provisions**

The Region may contract with MH/DS providers whose base of operation is in the region or they may use a rate agreement. The Region may also honor contracts/rate agreements with other regions and may also develop contracts/rate agreements with providers not based in the region. A contract/rate agreement may not be required for a one-time or “as needed” service.

The Region will use a “fee for service” reimbursement methodology for all of its services with the exception of Crisis Stabilization. As this service is developed, the Region may provide funding through a capacity grant (block grant) mechanism to ensure the program is available and operational 24/7.

The Region’s service contracts/rate agreements require providers meet all applicable licensure, accreditation or certification standards. Successful attainment of positive outcomes, individual and family satisfaction, and cost effectiveness measures are the most important factors in continued network participation.

This schedule is to be used to determine financial responsibility for services.

Each person is responsible for the percent of charges not otherwise covered, at the point where the family income and number in household lines intersect.
